Miami's Savoy Hotel completes multimillion-dollar renovation

The Savoy Hotel in Miami Beach, which originally opened in 1935, completed a multimillion-dollar refresh by boutique interior design firm Modplay Studio, according to a news release. Designed to give a Miami-meets-Palm Beach vibe, the 31 suites are outfitted with banana leaf-print wallpaper, vintage lamps, velvet furnishings and eclectic art.

The lobby features rattan settees, palm frond seating, velvet sofas, and even a bar cart to greet guests with hand-shaken martinis.
